## Project Title

Oh Jia Wei, Darien, Peter Febrianto Afandy, Quek Joo Wee, Desmond Loy Yong Kiat, Rene Low Yi Xuan, Phileo Teo Weihan (SIT-UoG Computing Science)

| INTRODUCTION  | CONCLUSION |
|---|------------|
| PREVIOUS VISUALIZATION  | •••        |
| STRENGTHS   |            |
| • •   |            |
| SUGGESTED IMPROVEMENTS  |            |
| 1<br>2  |            |
| IMPLEMENTATION  |            |
| Data • •  |            |
| <ul> <li>Software</li> <li>We used the Quarto publication framework and the R programming language, along with the following third-party packages: <ul> <li>readxl for data import</li> <li>tidyverse for data transformation, including ggplot2 for visualization based on the grammar of graphics</li> <li>knitr for dynamic document generation</li> </ul> </li> </ul> |            |
| IMPROVED VISUALIZATION  |            |
| FURTHER SUGGESTIONS FOR INTERACTIVITY   |            |
